A man who was sent to Europe for his health and finally found cure in a little change in his diet says: "I was troubled with dyspepsia for

five years and two doctors here in Kenosha that treated me for over a year both told me there was no help for me. Then I had an expert from Chicago, but still received no relief; then followed another expert from Chicago who came to our house two times a month for four months. He gave me up like all the others and told me to take a trip across the ocean, which I did in the year 1899 and came home about as bad as when I started. The doctors told me my stomach lining was full of sores. Then I began to study my own case and learned of the diet recommended by the Postum Cereal Co., so I gave up cofiee, pork and all greasy foods and began using Postum Food Coffee, Gradually I got better and better until I am well now as I ever was in my younger days, have no trouble and eat anything fit to eat.

"Sometimes away from home I am persuaded to drink coffee, but I only take a sip of it, for it tastes bitter and disagreeable to me, but the longer I use Postum the better I like it and the better I feel. I could say a great deal more of my experience with Postum. but think this will give everyone a good idea of what leaving off coffee and using Postum can do." given by Postum Co., Battle Creek Mich.
